Dear Gavin,

A word of thanks for your assistance in securing my purchase, at the price I was hoping for, while I was overseas recently.

I could not fault your level of communication, updating me regularly even though I requested SMS notifications a specific hours given the time difference.

You made me feel very comforted & valued, so I could enjoy my holiday without worrying. I feel you gained a good understanding of how I needed to be looked after & what I wanted before setting the right expectations with me.

Where appropriate I would happily recommend your service to colleagues & clients.

Regards,

Samantha Thomson
