Oasis Property Buyers
Gavin McPherson

29 January 2009

Dear Gavin,

It is with great pleasure that I write to thank you for your recent services in acting as my buyer's agent. The service I received from you and your team was professional, diligent and ultimately very cost effective.

As I live overseas it was virtually impossible for me to purchase a suitable investment property without visiting Australia. Your company made the whole process of purchasing a great investment easy and extremely efficient.

After providing you with a very challenging brief I was delighted that you sourced and recommended an appropriate property within a week of employing your services. Further, the price you negotiated on my behalf was far lower than what I was willing to pay. In the end, I approximate that using Oasis to negotiate on my behalf saved me in the region of \$20k. On a purchase of under \$350k that is a substantial saving.

I am delighted with the property you helped me to acquire as it meets all my very specific criteria in terms of location, balcony space and long term capital growth potential.

I am also delighted to note that an identical until 2 floors below the one I acquired was sold just 2 months prior for \$341 (I paid just \$327). Given that a floor higher usually commands a premium of around \$10k I feel that I have made an excellent purchase. Without the advice and guidance of Gavin this would not have been possible.

Oasis's in-house conveyancing service was also excellent. Natalie was very friendly, thorough and worked hard to ensure all my financing and legal requirements were taken care of by settlement.

Once again, thank you to Gavin and Natalie for their hard work and diligence in ensuring my property purchase was quick, easy, painless and a great deal.

Regards,

Hannah Graycar
