

Heart Rose

Garvin,

two apologies...

firstly to this lettering paper - my pens/pals are my 7 & 9 yo nieces... and secondly for the quack ~~off~~ upset... with all the chaos of the move, we did not get the opportunity to send our sincere thanks to you & your team.

As you know, there was much blood, sweat & tears shed to take the PP property to where it is today, and particularly more so in this instance given the limitations of time imposed & in what is a challenging market... but you delivered Gav!

From the start you have been honest, understanding & thorough. You put things into perspective & kept us challenged throughout. You are dedicated, and always willing to impart your knowledge, time and importantly voice your opinions even though it may not be market consensus or even ours!

We found the experience and process both simple and logical. The teams complemented each other and serves to expand on the value add of your business.

Heart Rose

We thoroughly enjoyed working with you
& your team and look forward to using
your services again from when we return...
and of course, should there be something
heating up in the background, Michael & I
are well positioned to move faster!

Many thanks again, Jan.

Kind regards,

Helen and Michael TRIEU.

Hi Gavin, Natabe, Joe & Tina, Paul & Anas

Just a little house postcard

Bremen is a port city of orderly terraced cottages,
architecture & historic landmarks.

We are enjoying the 'laxed pace of people, work & life
with everything running on
clock work precision.

In a nation filled with so much
pride - there remains evidence
of pain written in its history.

But of course... we wouldn't
swap this life for anything
else !! 😊 Helen + Michael.
